

OT-Kumi Oy's sealing profiles for Finnish aluminium profile systems

Our standard material is high quality EPDM. Certain types are manufactured with cord wire according customer needs. For EPDM profiles we have silicon treatment

Some profiles are available also from TPE. Usual colours are white (RAL 9016) and Grey (7040) and black. From TPE-materials we have possibility to produce flame retardant profiles for UL94 V-0 specification. Profiles 4019, 5790(SG4) and 5509 (SG2) are available from silicone.

Profiles are delivered normally in carton boxes 410*390*175 cm, but also roll packaging is possible.

OT-Kumi codes	Profile	Other codes	Materials
104		ET1	EPDM
1043		RT90	EPDM
1044		PX3	EPDM
1045		RT25	EPDM
1046		RT50	EPDM
1047		RT2	EPDM
1048		RT125	EPDM
1060		RT30	EPDM

OT-Kumi codes	Profile	Other codes	Materials
1061		RT100	EPDM
1062		RT75	EPDM
4019		PT5	Silicone
4020		ET2	EPDM
4023		DX915	EPDM
4024		ST3	EPDM
4025		LX2	EPDM
4026		LX1	EPDM
4027		PT3	EPDM
4028		DX919	EPDM
4029		DX819	Silicone
4030		PX1	EPDM TPE
4031		PX4	EPDM TPE

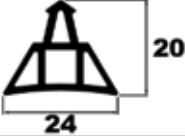

All measures are millimeters.
